Managed Detect and Respond / Managed Security Operations Center

You have a business to run. Let us handle the technical stuff so you focus on the goals and objectives of your IT environment.

Building and configuring a properly managed security portfolio can seem like a daunting task for most organizations, and with cyber threats on the rise, properly securing your organization and your customers is more crucial than ever.

Attackers are getting more sophisticated and seemingly untraceable, but with ASMGi's **Security Operations Center-as-a-Service**, you can be one step ahead of them.

Our **MSOC-MDR Service** utilizes advanced analytics, automation, risk-based vulnerability management and our team of highly experienced security experts to provide an end-to-end threat management and response strategy.
