

MANAGED DETECT AND RESPOND

MDR / MSOC

MANAGED SECURITY OPERATIONS CENTER

Let ASMGi handle the cybersecurity so you can focus on the goals and objectives of your IT environment.

Building and configuring a managed security portfolio can seem like a daunting task for most organizations, and with cyber threats on the rise, properly securing your organization and your customers is more crucial than ever.

Attackers are gaining sophistication and are seemingly untraceable, but with ASMGi's Security Operations Center-as-a-Service, you can be one step ahead of them.

Our **MDR / MSOC** Service utilizes advanced analytics, automation, risk-based vulnerability management and a team of highly experienced security experts to provide an end-to-end threat management and response strategy.

ASMGi Security Operations is the core of our Managed Security Services that help optimize your security resources to deliver security tailored to your exact needs.
